SUMMARY

Junior Frontend Developer with hands-on experience building small React applications, working with REST APIs, and creating responsive layouts. Looking for an internship to gain real-world experience and grow as a developer.

PROJECTS

React To-Do App

- Built a task management app with add, delete, toggle, and filtering features.
- Used controlled forms, local state, and reusable React components.

REST API App

- Built a React app using Fetch API and JSON Server to perform basic CRUD operations.
- Added loading and error states and rendered server data dynamically.

Responsive Landing Pages

- Built responsive layouts with Flexbox, CSS Grid, media queries, and BEM naming.
- Focused on clean UI and consistent behavior across different screen sizes.

EDUCATION

Web Development (Training Program, Yerevan) | 2025 – Present

- Focused on HTML, CSS, JavaScript, React, and responsive design.
- Regularly build small projects and solve coding exercises.
